CELEBRATING 75 YEARS OF MUSIC & ARTISTRY

Klipsch and Capitol Records, two iconic voices both celebrating over seven decades of bringing sound to life, partner to honor and pay tribute to the integral role music plays in shaping our lives. Music is timeless, healing and unites people across cultures. It inspires, drives and comforts us all. In celebration of their commitment to the enduring power of music, Klipsch and Capitol Records are releasing special edition co-branded Heritage speakers.

DESIGNED AND MADE IN THE USA USING DOMESTIC AND IMPORTED COMPONENTS

The Klipsch Capitol Heresy III speaker is a testament to the quality that Klipsch demands from each and every one of its audio products. Remember great sound? We do, too. The Klipsch Capitol Heresy III enclosure is still made in the USA, by proud craftsmen in Hope, Arkansas. Just like Paul W. Klipsch (PWK) intended.

FEATURES

SPECIAL EDITION

This Heresy III special edition model is being offered in a blonde cherry finish and tan grille cloth. A co-branded Klipsch and Capitol Records logo will be attached to each grille, and the back of each speaker will feature a special edition plaque that will be hand-signed by the craftsmen

COMPACT, THREE-WAY LOUDSPEAKER

The Heresy was originally introduced in 1957 as a compact three-way design utilizing a 12" woofer and horn-loaded midrange and tweeter. In 2006, the Heresy III was upgraded with a more powerful woofer, bi-wire network, as well as midrange and tweeter compression drivers, featuring a titanium diaphragm for smooth and accurate definition.

BOOK-MATCHED WOOD VENEER

Klipsch only uses book-matched wood veneers for the Heritage series. The veneer leaves are kept in order as they are delicately sliced from the timber and precisely arranged to provide a mirror image at the splice joint - like turning the pages of a book. This gives each speaker an aesthetically appealing and consistent appearance that is treasured more than any other cut of wood veneer.

MATCHED PAIRS

Each pair of Heritage Series loudspeakers are grain-matched using wood veneer panels that come from the same timber. Each cabinet is carefully matched so that each speaker in the pair is practically indistinguishable from the other. The speakers move seamlessly together through the factory. Each finished product is inspected and labeled with sequential serial numbers, ensuring that the Heritage series speakers leave the factory as a meticulously crafted set.
